

Weekly Meeting

June 7 2017

- CAP
- UBC Trip
 - Spoke with Belina and Thomas, should be good to go
 - Will head to Chicago straight from Vancouver
- Qual Exam

IO Library

- It is currently being implemented into CDMS DAQ
- There has been a request from calibration group to use library
 - They are using a different front-end, so this will ensure their data can be read by CDMSBATS
 - Will give a presentation in a few weeks
- My focus now turns to DMC
 - Need to look at the Matlab data files
 - Determine where the Library will be implemented
