

Weekly Meeting

June 15 2017

IO Library

- It is currently being implemented into CDMS DAQ
- Prepare presentation for test facility doing calibration studies
 - Using a different front end
 - Northwestern university
 - See if how things are going with Belina and CDMS DAQ
- My focus now turns to DMC
 - Need to look at the Matlab data files
 - Determine where the Library will be implemented
 - Long term: adding noise to DMC data, how to do this in PreBats
 - Generally, noise addition should be moved from CDMSBATS to PreBats

UBC Visit

- Will be there week of Aug 8 – 11
- After, straight to collab. Meeting Aug 14-16
- Spending time at both TRIUMF and UBC
